

**THE TEAM.
THE KIT.
THE RESULTS.**

Make your Mark

THE TEAM YOU CAN DEPEND ON.

If you're looking for coding and labelling solutions that always hit the mark, you're better off talking with Reynolds Group. Since 1990 we've been providing New Zealand industry with super reliable, innovative systems that keep your production high and running costs low.

How? Well, at Reynolds Group we don't just provide you with the best kit on the market, we also work with you to develop the best possible integrated solution for your business. By fully customising in this way, we can also anticipate your future needs and help ensure you continue to get the results you want as your business grows.

Partner this with our unparalleled service and support programs available all around the country, and you'll see just why Reynolds Group is the team you can depend on for your coding and labelling – time and time and time again.

Multiple winner at the inaugural Fonterra Packaging Award

Reynolds Group Ltd, 4 Henderson Place,
PO Box 13-579, Onehunga, Auckland.

Reynolds Group is proudly 100% New Zealand owned and operated.

Make your Mark

THE RESULTS YOU WANT.

Reynolds Group has developed a suite of innovative service and support programs to keep your operating costs as low as possible - wherever you are in New Zealand.

Uptime

Uptime is like a continual monthly WOF for your machines, to minimise downtime. We provide you with comprehensive regular inspections on your fleet on a contract basis, and carry out maintenance accordingly. All machines covered are then guaranteed for 4 weeks after inspection - or we'll fix it free of charge.

Uptime contracts include the following great benefits:

- Save thousands of dollars on maintenance
- 10% discount on spare parts fitted by our technicians
- 7year linear warranties on major assemblies
- Component lifetime guarantees
- Great discounts on consumables
- Free 'tips & tricks' operator training
- Comprehensive reporting on fleet condition
- After-hour callouts are billed the same as normal business day callouts
- Travel is free for remedial jobs.

Uptime Lite

If you'd rather not commit to an ongoing contract, try Uptime Lite to receive many of the benefits of Uptime without signing up for a fixed period.

Standard service

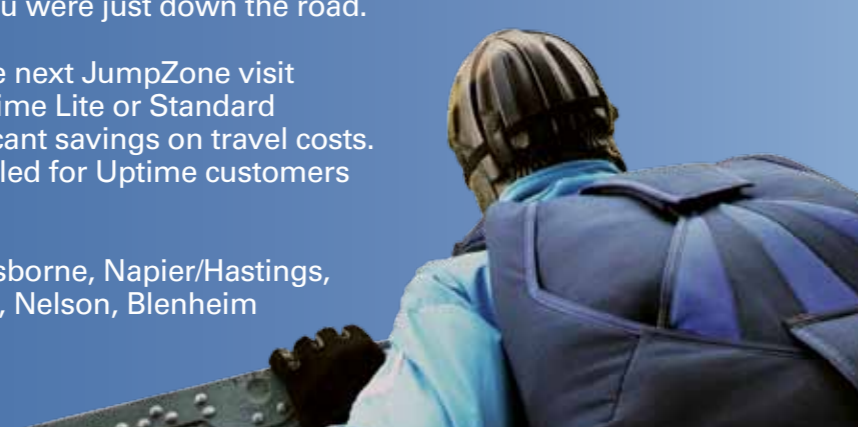

When you know exactly what your problem is, we can fix that too. We offer a standard service for individual machines, with low cost, fixed rates.

JUMPZONES

Outside Auckland, Wellington and Christchurch? Not a problem. With JumpZones we visit various locations around the country on a fixed, regular cycle. So you can receive the same great service as if you were just down the road.

We will email you regularly advising of the next JumpZone visit window to your area. Simply book an Uptime Lite or Standard service visit and get ready to make significant savings on travel costs. JumpZone visits are automatically scheduled for Uptime customers and full benefits are offered.

Current JumpZones include: Hamilton, Gisborne, Napier/Hastings, New Plymouth, Eltham, Palmerston North, Nelson, Blenheim and Dunedin.

THE KIT YOU NEED.

Reynolds Group is not allied to one manufacturer or technology, which means whatever your requirements we can provide you with the best kit for the job.

Continuous Inkjet Printers

Our high quality CIJ printers print text, graphics and barcodes directly onto product packaging without contact:

- Super reliable, intelligent technology
- Ideal for food and dairy industries
- Minimise running costs and downtime
- Wide range of inks to suit every packaging material

Thermal Overprinters

Our TTO printers print text, graphics and barcodes onto flexible packaging and label webs:

- 300 dpi quality printing
- Ideal for best before dates, product information, nutritional panels
- Designed for easy integration with packaging machines

Laser Printers

Our laser printers print text, graphics and barcodes directly onto product packaging without contact:

- The ultimate in operating efficiency
- Consumable free for minimum maintenance
- Ideal for dedicated production lines

Large Character

Our large character DOD printers are ideal as cardboard box, powder bag, extruded plastics, steel framing and timber printers:

- More flexible and powerful than entry level machines
- Super fast, efficient and reliable
- Perfect for high volume production lines

High Resolution

Our large character IJ and TIJ printers give stunning results for text, graphics and barcodes onto cardboard boxes and trays:

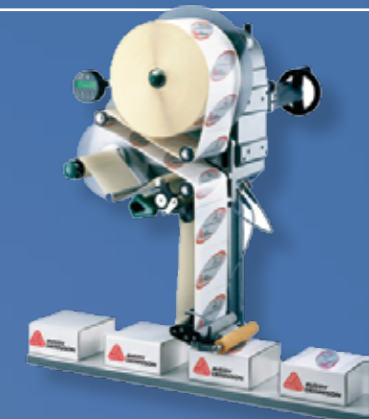

- Up to 600 dpi quality printing
- Bring customised box printing back in house
- Reduce your box inventory holding and complexity
- Print in real time - ideal for promotions

Labellers

Our labelling systems decorate virtually every product type from drink bottles to shippers and pallets:

- Labelling made easy through experience
- Solutions designed to your exact needs
- Everything from labelling heads to high speed rotaries

Desktop Printers

Our desktop printers are specially designed for industrial applications

- The fastest on the market
- High quality 300dpi thermal transfer print at thermal direct prices
- Available in a range of configurations including dispenser, rewinder, cutter and stacker

Label Printer Applicators

Our label printer applicators print text, graphics and barcodes onto labels immediately prior to placement onto virtually any product:

- 300 dpi quality printing
- Super fast with a unique ribbon save function
- Ideal for cartons, pallets, batch and real time overprinting
